

Dynamic 400/500/600

FLOW WRAPPING MACHINE

Designed to satisfy high performances as well as easiness of operation.

Dynamic - the **SIEMENS SIMOTION** electronic control system enables the storage of 50 different products, allowing quick size changes as well.

The possibility of being fitted with a wide range of accessories, makes DYNAMIC able to meet any customer's requirements.

Management - all machine functions and adjustments such as, for example, rotative printing and centring, can be set and handled on a very simple touch screen interface.

Seal - rotary sealing system.

Function - automatic or manual.

Applications - designed to be used in a wide range of manufacturing areas being suitable to pack small as well as big size items and multi-pack.

Ideal sectors food, technical, pharmaceutical.

Design - the particular rounded structure, "safety design", makes the machine aesthetically appealing and ensures an easier cleaning.

Construction - painted steel frame.

Stainless steel sliding roll.

Versions - numberless possibilities of different customization; AISI 304 stainless steel version; left version.

Accessories

- thermal transfer printer
- alcohol sprinkler system
- double reel holder
- automatic reel change
- online assistance
- no product - no bag

Dynamic 400/500/600

FLOW WRAPPING MACHINE

MODEL	DYNAMIC 400-500-600
Bag length	60-300 mm / 60-300/ 60-600
Jaws width	170 / 250 / 300 mm
Max product height	90 / 100 / 120 mm
Max product width	150 / 230 / 250 mm
Max reel diameter	300 mm
Reel holder width	400 / 500 / 600 mm
Sealing system	rotary
Speed	200 pz/min (according to kind of product)
Temperature control	electronic
Rolls	with pneumatic closing
Control panel	touch screen
In-feed conveyor	1800-2400mm
Motor	brushless
Voltage	400 V 50/60 Hz
Air supply	6 Bar
Dimensions:	3000 (3500 version 600) x 1900 x 1400 mm
Weight:	600 kg
